RED AND SLOW

Recent press for Doug's work on Casey Fallen - Atmospheric Disturbances: "Kudos goes out to the behind the scenes work from Osborne. Guitar work is amazing and the production effort really brings it all together. Osborne is listed as the producer." " 'Cocktail Party' is a richly syncopated mostly jazz-inspired song with truthful convictions providing musical meandering teetering on brilliant." -Michael Hall, Vents Magazine

"...rock foundation, painted against a melodic backdrop of sound and touches of guitar, keyboards and some entertaining solos and drum/bass backbone. All of this layered instrumentation really hits home testament to Osborne's role here." "...an exceptional 13 Track CD...delivered to us by a driven and talented writer." -Jared Kelly, MusicEmissions

"Glorious, cinematic, dark and broken, a brilliant achievement." -Dave Franklin, Dancing About Architecture
